PART 1 PROLOGUE

INTRODUCTION

*I present here the **Famine Message of 1974** in its entity, together with my record of the events leading up to receiving this Message and select pertinent events occurring after receiving this Message. Portions of this section (including the full text of the Famine Message and some of my notes) were previously published the Ministry's various newsletters and reports, over the years, as well as in the now out-of-print book, **The Staff and The Sword** (The Staff and The Sword Ministry, 1976).*

The Famine Message of 1974

*My notes and record surrounding the Famine Message are presented in chronological order. I will always present the Lord's Word in **BOLD CAPITAL LETTERS** to distinguish His Word from my own comments. My notes are recorded exactly as I wrote them.*

*My original 1974 explanation and admonition appears as a part of the complete text, but also is important to included here: **“This is a message from God, Jesus, and the Holy Spirit to America. It was given by the Archangel with this specific wording to a Prophet of God. Those who know and love God will know by His Spirit that this is authentic. The point is that it is from Father God, Jesus Christ, and the Holy Spirit. The messenger is irrelevant. The message is not. It is powerful and to the point. You may pass this on as led to do so. ALL NEED TO READ AND HEED THIS WARNING!”***
